COUNT I

(Infringement of the ‘357 Patent By Afeel)

57. Durst repeats and realleges the allegations set forth in Paragraphs 1 to 56 of this Complaint as if fully set forth herein.

58. The ‘357 Patent was duly and legally issued by the United States Patent and Trademark Office on November 26, 2013.

59. Durst is the owner by assignment of the ‘357 Patent, has been the owner by assignment of the ‘357 Patent since it issued, and has the right to sue for infringement of the ‘357 Patent.

60. Afeel has knowledge of the ‘357 Patent and of its infringing acts at least through the filing of this Complaint.

61. As explained above, Durst has marked and marks products with the ‘357 Patent in accordance with 35 U.S.C. § 287.

62. Afeel is and has been infringing, literally or under the doctrine of equivalents, the claim of the ‘357 Patent by making, using, offering to sell, exposing for sale, and/or selling showerheads embodying the invention of the ‘357 Patent, including at least the Accused Products, within the United States and/or by importing such showerheads, including at least the Accused Products, into the United States.

63. At the very least, an ordinary observer, familiar with the prior art designs, would be deceived into believing that the Accused Products are the same as the patented design of the ‘357 Patent.

64. Moreover, on information and belief, Afeel is indirectly infringing, literally or under the doctrine of equivalents, the claim of the ‘357 patent and will continue to do so.

65. On information and belief, Afeel provides and will continue to provide other third parties, such as retailers, with showerheads embodying the invention of the ‘357 Patent – including at least the Accused Products -- who subsequently use, offer to sell, expose for sale, and/or sell those products within the United States. On information and belief, the acts of those third parties benefit Afeel, for example, by leading to an increase in the sale and distribution of Afeel’s products.

66. Accordingly, the third parties referenced in the preceding paragraph directly infringe, literally or under the doctrine of equivalents, the claim of the ‘357 Patent. On information and belief, Afeel is providing and will continue to provide showerheads embodying the invention of the ‘357 Patent -- including at least the Accused Products -- to those third parties during the time the ‘357 Patent is in force with the intent to cause those third parties to engage in the aforementioned infringing acts, which are meant to benefit Afeel (*i.e.*, at least the use, offer for sale, exposure for sale, and sale of such showerheads within the United States). Afeel has knowledge of the ‘357 Patent at least through the filing of this complaint and knows that the use, offer for sale, exposure for sale, and sale of showerheads embodying the invention of the ‘357 Patent – including at least the Accused Products -- within the United States by such third parties constitutes infringement of that patent. Afeel therefore actively induces and will continue to actively induce infringement of the ‘357 patent.

67. Durst has been damaged and irreparably harmed by Afeel’s infringing activities and will continue to suffer damages and irreparable harm unless the Court enjoins Afeel from continuing these activities.

COUNT II

(Infringement of the ‘991 Patent By Afeel)

68. Durst repeats and realleges the allegations set forth in Paragraphs 1 to 67 of this Complaint as if fully set forth herein.

69. The ‘991 Patent was duly and legally issued by the United States Patent and Trademark Office on September 15, 2015.

70. Durst is the owner by assignment of the ‘991 Patent, has been the owner by assignment of the ‘991 Patent since it issued, and has the right to sue for infringement of the ‘991 Patent.

71. Afeel has knowledge of the ‘991 Patent and of its infringing acts at least through the filing of this Complaint.

72. Afeel is and has been infringing, literally or under the doctrine of equivalents, the claim of the ‘991 Patent by making, using, offering to sell, exposing for sale, and/or selling showerheads embodying the invention of the ‘991 Patent, including at least the Accused Products, within the United States and/or by importing such showerheads, including at least the accused products, into the United States.

73. At the very least, an ordinary observer, familiar with the prior art designs, would be deceived into believing that the Accused Products are the same as the patented design of the ‘991 Patent.

74. Moreover, on information and belief, Afeel is indirectly infringing, literally or under the doctrine of equivalents, the claim of the ‘991 patent and will continue to do so.

75. On information and belief, Afeel provides and will continue to provide other third parties, such as retailers, with showerheads embodying the invention of the ‘991 Patent -- including at least the Accused Products -- who subsequently use, offer to sell, expose for sale, and/or sell those products within the United States. On information and belief, the acts of those

third parties benefit Afeel, for example, by leading to an increase in the sale and distribution of Afeel's products.

76. Accordingly, the third parties referenced in the preceding paragraph directly infringe, literally or under the doctrine of equivalents, the claim of the '991 Patent. On information and belief, Afeel is providing and will continue to provide showerheads embodying the invention of the '991 Patent -- including at least the Accused Products -- to those third parties during the time the '991 Patent is in force with the intent that to cause those third parties to engage in the aforementioned infringing acts, which are meant to benefit Afeel (*i.e.*, at least the use, offer for sale, exposure for sale, and sale of such showerheads within the United States). Afeel has knowledge of the '991 Patent at least through the filing of this complaint and knows that the use, offer for sale, exposure for sale, and sale of showerheads embodying the invention of the '991 Patent – including at least the Accused Products -- within the United States by such third parties constitutes infringement of that patent. Afeel therefore actively induces and will continue to actively induce infringement of the '991 patent.

77. Durst has been damaged and irreparably harmed by Afeel's infringing activities and will continue to suffer damages and irreparable harm unless the Court enjoins Afeel from continuing these activities.

PRAYER FOR RELIEF

WHEREFORE, Durst respectfully requests that this Court enter judgment in its favor granting the following relief:

E. awarding Durst an accounting and damages resulting from infringement of the ‘357 Patent by Afeel in an amount no less than a reasonable royalty or any other minimum

amount guaranteed under the law, including but not limited to damages pursuant to 35 U.S.C. §§ 284 and/or 289;

F. awarding Durst an accounting and damages resulting from infringement of the '991 Patent by Afeel in an amount no less than a reasonable royalty or any other minimum amount guaranteed under the law, including but not limited to damages pursuant to 35 U.S.C. §§ 284 and/or 289;

G. awarding Durst pre-judgment and post-judgment interest at the maximum allowable rate;

H. declaring this to be an exceptional case and awarding Durst attorneys' fees under 35 U.S.C. § 285;
